Who We Are

A community bank built for business. Our award-winning team combines local decision-making with modern digital tools to deliver responsive service and practical solutions—so you can manage today and grow with confidence.

Founded in 1875, we pair deep local roots with proven financial strength—giving you a stable partner for the long term.

A Local, Flexible Approach

Our commitment goes beyond banking. We support businesses through every phase—stabilizing operations, financing growth, and navigating key transitions. You'll get straightforward guidance, timely answers, and solutions designed around your cash flow and day-to-day realities, so you can stay focused on your business.

We believe in relationships, not just transactions. We take the time to understand your revenue drivers, operating cycle, and risk profile—then align banking, credit, and treasury services accordingly. With consistent points of contact and proactive check-ins, your plan stays current as your business changes.

Flexibility is at the heart of our approach. Because decisions are made locally, we can move quickly—approving, adjusting, and tailoring solutions as needs evolve. From cash management and payments to credit and industry-specific support, you'll have a full-service team focused on keeping operations smooth and growth on track.

A Wealth of Expertise

Beyond day-to-day banking, we help business owners plan ahead—improving liquidity, preparing for succession, and coordinating personal and business priorities. We also help you grow, preserve, and transition your wealth, and plan for retirement or succession. As your goals evolve, we'll bring in the right specialists so your strategy supports both the company and what's next.
